

Andrew Bajulaiye

video editor | vfx artist | graphics designer

www.andrewbee.com

vfx@andrewbee.com

I am a **very passionate** and **enthusiastic** goal-driven video post production professional with a strong **art** and **design** background. My work ethic has always been to go **beyond expectation** in every project or role that I undertake.

My strengths lie in utilizing **After Effects** and other complimentary production software including **Final Cut Pro, Premiere, Photoshop, Illustrator** and **Cinema4D** to create rich media content for both web, digital and broadcast.

I enjoy challenges, working with teams and immune to long work hours just as long as you point me towards the **coffee machine**.

Experience

Maverick Media - Production Intern

Aug - Sept 2010

Creates trailers, in-game cinematics and commercials for game publishers.

Created a new pre-roll animation in After Effects. Designing assets for video production & website. Video editing of some projects.
